ISIS IMAGERY BRIEF

September 25, 2009

ISIS has obtained satellite imagery from DigitalGlobe of two possible locations of the gas centrifuge uranium enrichment facility under construction near Qom, Iran. Both are tunnel facilities located within military compounds approximately 30-40 kilometers away from Qom (see images below).

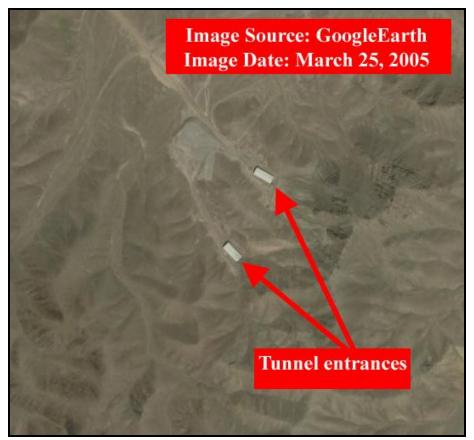

Facility #1

Located North East of Qom

Coordinates: 34.88459, 50.99596

Facility #2

<u>Located North West of Qom.</u> Coordinates: 34.94373, 50.76056

Tunnel entrances inside military facility, north-east of Qom

Tunnel entrances inside military facility, north-east of Qom.

Facility #2

Tunnel entrance inside military facility, north-west of Qom

Tunnel entrances inside military facility, north-west of Qom
